COMPROMISO CON LA SOSTENIBILIDAD

Desde **ALVIC** entendemos el papel que tenemos en la preservación de nuestro planeta y por ello seguimos una política que **respeto el medio ambiente** tanto en el empleo de materias primas certificadas como en los procesos industriales que se emplean en la elaboración de todos los productos y superficies. Con este objetivo, **ALVIC** tiene implementado un sistema integrado de gestión (**ISO 14001**) cuyo principal objetivo es minimizar el impacto que, como consecuencia de nuestra actividad industrial se pudiera provocar en el medio ambiente. Nuestra política de aprovisionamiento tiene como prioridad aquellas materias primas certificadas en la Cadena de Custodia Forestal, así como aquellas que provienen de procesos de reciclado. Así mismo, **ALVIC** cuenta con los certificados **PEFC** y **FSC** de cadena de custodia forestales, lo que garantiza un uso sostenible de los mismos.

COMMITMENT TO SUSTAINABILITY

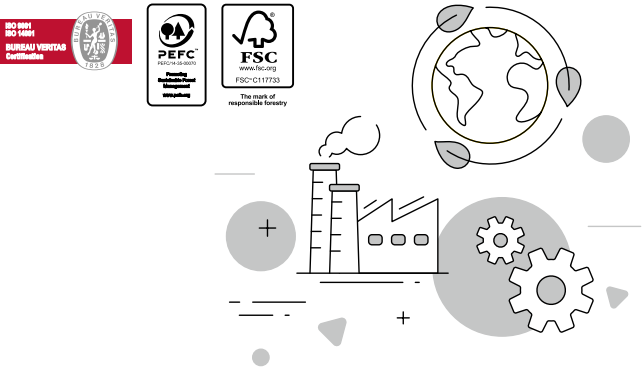

At **ALVIC**, we understand the role that we play in the preservation of our planet. For this reason, we follow **an environmentally-friendly** policy, both in the use of certified raw materials and in the industrial processes that are implemented in the production of all our products and surfaces.

ALVIC have deployed an integrated management system (**ISO 14001**) in its processes, whose main aim is to minimize the impact that our industrial activity may have on the environment. Our procurement policy prioritises the use of raw materials that are certified in the Forest Product Chain of Custody, as well as those that come from recycling processes. **ALVIC** is **PEFC** and **FSC** Chain of Custody certified, guaranteeing the sustainable use of forestry products.

ENGAGEMENT EN MATIÈRE DE DURABILITÉ

Chez **ALVIC**, nous comprenons le rôle que nous jouons dans la préservation de notre planète et c'est pourquoi nous suivons une politique qui **respecte l'environnement** tant dans l'utilisation de matières premières certifiées que dans les processus industriels utilisés dans la production de tous nos produits et surfaces.

Dans cette optique, **ALVIC** a incorporé à ses processus un système intégré de gestion (**ISO 14001**) dont l'objectif principal est de minimiser l'impact que notre activité industrielle peut avoir sur l'environnement. Notre politique d'approvisionnement donne la priorité aux matières premières certifiées dans la chaîne de contrôle forestier, ainsi qu'à celles qui proviennent des processus de recyclage. **ALVIC** est également certifié **PEFC** et **FSC** pour la chaîne de contrôle des ressources forestières, ce qui garantit leur utilisation durable.
