FRONTY MEBLOWE

PL: Fronty meblowe są najbardziej reprezentacyjną częścią mebla nadającą mu wyraz i charakter, co w efekcie końcowym buduje oczekiwany przez nas klimat całego pomieszczenia, dlatego jego wybór powinien być wyjątkowo dobrze przemyślany.

Podejmując ważną decyzję w kwestii estetyki - wybór wzoru i koloru - nie możemy zapomnieć o jego właściwościach użytkowych, jakości wykonania czy trwałości, gdyż decyzję naszą podejmujemy na lata. Tylko użycie najwyższej jakości markowych surowców i materiałów w połączeniu z największą starannością i gruntowną wiedzą technologiczną, gwarantują perfekcyjną jakość i najwyższą trwałość produktu. Chcemy, aby wybrane u nas fronty cieszyły Państwa jak najdłużej!

Nasza oferta frontów dostępna jest z wykończeniem w folii meblowej lub w wersji lakierowanej. Z szerokiego spektrum materiałów, wzorów czy kolorów każdy z łatwością znajdzie coś dla siebie. Poszukującym czegoś wyjątkowego dajemy możliwość kreacji swoich niepowtarzalnych, unikatowych frontów. Nasz front to Państwa bezkompromisowy wybór!

FURNITURE FRONTS

EN: Furniture fronts are the most representative part of a furniture, giving it character and therefore creating the desired atmosphere of the entire room. Because of the above, selecting the right furniture front should be particularly wellconsidered.

While making an important decision in regard to the aesthetics, choosing the designs and colours, we should not forget about usability, quality and durability of the product, as it will serve us for years. Only using recognised materials of the best quality, combined with the uttermost diligence and an in-depth technological knowledge guarantees the highest quality and durability of the final product. Our aim is for you to be able to enjoy our furniture fronts for as long as possible!

Our front assortment is available with a PCV foil, lacquer. With our wide range of materials, designs and colours you are sure to find something you will love. For anybody looking for unique creations, we offer a possibility of creating individual, one-of-a-kind fronts. Our fronts are your uncompromising choice!

MÖBELFRONTEN

DE: Möbelfronten sind der repräsentativste Teil Ihres Möbels und sorgen für eine angenehme Atmosphäre und individuellen Charakter, nicht nur für das einzelne Möbelstück, sondern für die ganzen Räume. Deshalb sollte die Auswahl sehr gut durchgedacht sein.

Bei der wichtigen Entscheidung in Sache Ästhetik (Muster und Farbe) darf man nicht vergessen, dass dies eine Wahl für mehrere Jahre ist – deshalb sind auch die nützlichen Eigenschaften, wie Qualität und Beständigkeit von großer Bedeutung. Nur der Einsatz von namhaften und hochwertigen Rohstoffen und Materialien in Verbindung mit Sorgfalt und gründlichem technologischem Wissen garantieren eine perfekte Qualität und höchste Beständigkeit des Produktes. Wir wollen, dass Sie lange Freude an Ihrem Produkt haben!

Unser Möbelfronten-Angebot steht in vielen Finish-Varianten zur Verfügung: PVC Folie, lackiert.

Aus unserem breiten Spektrum von Mustern, Materialien oder Farben kann jeder leicht etwas für sich finden. Den Anspruchsvollsten unter Ihnen, die etwas Besonderes suchen, geben wir die Möglichkeit zum Kreieren von eigenen und einzigartigen Fronten. Unsere Fronten sind Ihre kompromisslose Entscheidung!

Elementy foliowane / foiled elements

Wszelkie plamy, szczególnie te spowodowane przez kolorowe substancje i płyny (takie jak musztarda, kawa, herbata, czerwone wino, itd.) należy możliwie najszybciej zmywać z użyciem wody, ewentualnie z wykorzystaniem zwykłych domowych środków czyszczących.

Należy zapobiegać wysychaniu plam. Wszelkie pozostałe plamy, szczególnie rozpryski i osady tłuszczu można usunąć z użyciem 30% roztworu ciepłego mydła w płynie i miękkich ściereczek bawełnianych (nie ściěrki z mikrofibry!).

Nie należy używać proszku do szorowania, szczotek ani wełny stalowej!

Procedura ta może wymagać kilkukrotnego powtórzenia.

Następnie należy zmyć pozostałe mydło za pomocą letniej wody i wytrzeć powierzchnię do sucha używając miękkiej ściěrki bawełnianej.

Odkurzacze parowe, myjki wysokociśnieniowe oraz gąbki do ścierania nie nadają się do czyszczenia powlekanych powierzchni mebli.

Foiled elements

Any stains, especially those caused by colored substances and liquids (such as mustard, coffee, tea, red wine, etc.) should be washed off with water as soon as possible, if necessary with the use of ordinary household cleaners. Prevent the stains from drying out. Any remaining stains, especially splashes and grease deposits, can be removed with 30% warm liquid soap solution and soft cotton cloths (not microfiber cloths!). Do not use scouring powder, brushes or steel wool! This procedure may need to be repeated several times. Then wash off the remaining soap with lukewarm water and wipe the surface dry using a soft cotton cloth. Steam cleaners, high-pressure cleaners and abrasive sponges are not suitable for cleaning coated furniture surfaces.

Elementy lakierowane

Żaden lakier nie jest w pełni odporny na uszkodzenia, zwłaszcza uszkodzenia mechaniczne. Z tego powodu warto zapoznać się zasadami prawidłowego użytkowania i pielęgnacji frontów lakierowanych. Fronty lakierowane są produkowane na bazie MDF pokrytego wysokiej jakości lakierami barwiącymi, umożliwiającymi uzyskanie dowolnej barwy z takich wzorników kolorystycznych jak RAL, NCS.

Fronty należy czyścić wyłącznie za pomocą miękkich, lekko wilgotnych tkanin oraz przy użyciu specjalnych środków do mycia powierzchni lakierowanych lub rozcieńzonego płynu do naczyń, nie zawierającego alkoholu. Materiały drewnopochodne, w tym płyty MDF, chłoną wilgoć na niezabezpieczonych powierzchniach i krawędziach (np. w miejscach uszkodzonych mechanicznie). Przed użyciem środka do mycia lub konserwacji należy upewnić się, że nie wpłynie on na wybarwienie i jakość powierzchni frontów.

Pomimo stosowania przez producentów lakierów najwyższej jakości z filtrami UV, fronty lakierowane poddają się procesom naturalnego starzenia.

Nie mogą być więc narażone na długotrwałe działanie silnych promieni UV, ponieważ może to spowodować blaknięcie koloru.

Po czyszczeniu fronty powinny być zawsze wytarte do sucha miękką szmatką.

W szczególności należy unikać:

- narażania frontów na długotrwały kontakt z wilgocią i gorącą parą wodną,
- zanurzania frontów w wodzie,
- używania do czyszczenia acetonu, amoniaku, alkoholu oraz innych silnych lub rysujących środków czyszczących,
- używania środków ściernych takich jak proszki i pasty ścierne, gąbki do szorowania, ostre szczotki i szmatki,
- gotowania bez włączonego wyciągu w okapie kuchennym,
- narażania frontów na długotrwałe działanie promieni słonecznych. Może to spowodować zmiany barwy frontów,
- intensywnego czyszczenia powierzchni frontu w jednym miejscu i nadmiernego polerowania. może to zmatowić czyszczone miejsce.,
- pozostawiania uchylonych drzwiczek bezpośrednio po zakończeniu pracy piekarnika lub zmywarki w celu studzenia lub odparowania wnętrza urządzenia,
- pozostawiania uchylonego frontu bezpośrednio pod oświetleniem halogenowym,
- pozostawiania plam do zaschnięcia, gdyż mogą one trwale przebarwić powierzchnię frontu,
- kontaktu powierzchni lakierowanych z ostrymi przedmiotami.

Lacquered elements

No varnish is fully resistant to damage, especially mechanical damage. Therefore, it is worth getting acquainted with the principles of proper use and care of lacquered fronts.

Lacquered fronts are manufactured on the basis of MDF covered with high-quality tinting varnishes, enabling to obtain any color from such color pallets as RAL, NCS.

The fronts should only be cleaned with soft, slightly damp fabrics and with the use of special detergents for cleaning painted surfaces or diluted dishwashing liquid, not containing alcohol.

Wood-based materials, including MDF boards, absorb moisture on unprotected surfaces and edges (e.g. in mechanically damaged places). Before using the cleanser or maintenance, make sure that it does not affect the color and quality of the surfaces of the fronts. You can first try a cleaning method in a less visible spot.

Despite the fact that manufacturers use the highest quality varnishes with UV filters, also the lacquered fronts undergo the processes of natural aging. Therefore, they cannot be exposed to long-term effects of UV rays because this may cause the color to fade.

After cleaning, the fronts should always be wiped dry with a soft cloth.

In particular, the following should be avoided:

- exposing the fronts to long-term contact with moisture and hot water vapor
- immersing the fronts in water
- using acetone, ammonia, alcohol for cleaning
- use of abrasive agents such as abrasive powders and pastes, scouring sponges, sharp brushes and cloths
- cooking without a cooker hood
- exposing the fronts to long-term sunlight. This may cause changes the colors of the fronts
- intensive cleaning of the front surface in one place and excessive polishing. It may matt the cleaned place
- leaving the door ajar immediately after the oven or dishwasher is finished in order to cool or evaporate the inside of the device
- leaving the front ajar directly under halogen lighting
- leaving stains to dry, as they may permanently discolour the front surface
- contact of lacquered surfaces with sharp objects

UWAGA! DO PIELĘGNACJI FRONTÓW ZABRANIA SIĘ STOSOWANIA DETERGENTÓW O SILNYM DZIAŁANIU, ROZPUSZCZALNIKÓW, PŁYNÓW LUB PAST ZAWIERAJĄCYCH ŚRODKI ŚCIERNE, PŁYNÓW DO SZYB, OCTU, ŚRODKÓW DO CZYSZCZENIA MEBLI ZAWIERAJĄCYCH WOSK, TWARDYCH GĄBEK, RĘCZNIKÓW PAPIEROWYCH ITP.

ATTENTION! FOR THE CARE OF THE FRONTS IT IS FORBIDDEN TO USE DETERGENTS WITH STRONG ACTION, SOLVENTS, LIQUIDS OR PASTES CONTAINING ABRASIVES, WINDOW CLEANING LIQUIDS, VINEGAR, FURNITURE CLEANERS CONTAINING WAX, HARD SPONGES, PAPER TOWELS ETC.
